Dear Katie:

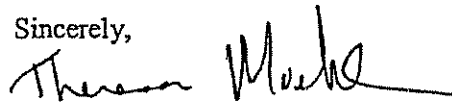

We received document productions from SRI today and on July 10, 2006. As you know, discovery closed months ago and we did not have these documents during the depositions of SRI witnesses. Please let us know what SRI's intentions are with regard to these documents.

In addition, SRI produced an invention disclosure, SRI 287656-659, thereby waiving privilege. This raises a host of issues, such as production of other documents falling under the waiver and SRI's intentions regarding deposition discovery. SRI has used this document in support of its reply and answering briefs on the pending motions relating to the *Live Traffic* paper. This document also contradicts statements in Mr. Porras' declaration concerning the alleged invention. SRI's attempt to use the document without allowing ISS full discovery is highly prejudicial.

Please let us know when we can expect production of the rest of the documents falling under the waiver. In addition, does SRI intend to offer to re-open the depositions of the witnesses that gave testimony relating to topics covered in the invention disclosure and other documents to be produced under the waiver? Is SRI willing to bear the cost relating to re-opening the depositions due to its belated production?

We would appreciate your prompt response.

Sincerely,

Theresa A. Moehlman
